EDUCATION

- Chandigarh University**
Bachelors in Computer Science Engineering | CGPA- 7.7
Key Subjects: Data Structures (Algorithms), Database, Networking, Operating Systems, Cloud Computing, Theory of Computation, Big Data Analytics, Software Engineering
Punjab, India
Aug 2021- May 2025
- Trinity Convent Higher Secondary School, Vidisha, MP**
Intermediate - PCM | Percentage-82%
CBSE
Mar 2020- April 2021

OBJECTIVE

Results-driven Salesforce Developer and Project Engineer at Wipro with hands-on experience in Apex, Lightning Web Components, SOQL, and end-to-end Salesforce application development. Holder of 5 Salesforce certifications including Agentforce Specialist and Platform Developer I. Complemented by strong full-stack skills in the MERN stack and Python-based machine learning. Seeking entry-level Salesforce or full-stack development roles where I can deliver real business impact.

SKILLS SUMMARY

- Salesforce:** Apex, Lightning Web Components (LWC), SOQL, SOSL, Triggers, Flows, Agentforce, MuleSoft
- Languages Known:** Apex, C++, Python, SQL, HTML, CSS
- Frameworks and Libraries:** React, Node.js, Express.js, Next.js, Scikit-Learn, NumPy, Pandas, Matplotlib
- Databases:** MongoDB, MySQL
- Tools and Platforms:** VS Code, PyCharm, Jupyter Notebook, IntelliJ, Android Studio, Git, Microsoft Office
- Soft skills:** Leadership, Creative, Excellent Communication, Problem Solving, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

- Project Engineer (Salesforce Developer) at Wipro Limited** **January 2026 - Present**
Completed intensive Wipro Salesforce training and delivered a production-grade Invoice Management System using Apex, Lightning Web Components (LWC), and SOQL. The project involved end-to-end data modeling for invoices, line items, and payments, with automated workflows to track overdue accounts. I implemented role-based security, validation rules, and automated calculation logic to ensure data integrity and access control, while designing dynamic, responsive UIs with LWC to demonstrate full-cycle Salesforce application development. Additionally, I was allocated to a MuleSoft integration project, gaining exposure to enterprise API-led connectivity and integration patterns.
- MERN and Django Developer at The Entrepreneurship Network (Internship)** **April 2025 – August 2025**
Led the development of Ten CodeHub, a full-stack coding platform featuring real-time code execution, curated DSA problem sets, and JWT-based user authentication. As Team Leader, I coordinated cross-functional developers and ensured timely milestone delivery. I also contributed to Ten Sentinel, a MERN-based cloud security awareness platform designed to promote best practices in cloud safety, demonstrating both technical expertise and leadership in end-to-end application development.

SALESFORCE CERTIFICATIONS

- 1) Salesforce Certified Agentforce Specialist
- 2) Salesforce Certified Platform Developer I
- 3) Salesforce Certified Platform Foundations
- 4) Salesforce Certified Platform Administrator
- 5) Salesforce Certified JavaScript Developer

ADDITIONAL CERTIFICATIONS

- Data Analytics (Deloitte)**
- GenAI (BCGX)**
- Data Structures and Performance (UC San Diego)**
- Cloud Computing Concepts (ILLINOIS)**
- Foundations of User Experience Design (Google)**
- Foundation Course in Banking, Financial Services, and Insurance (NSE Academy)**
- Introduction to Internet of Things**
- Java as Second Language**
- Mobile Development (Meta)**

PROJECTS/TRAININGS

- **Invoice Management System (Skillset- Salesforce, SOQL, SOSL, Java)**

Engineered a Salesforce-based Invoice Management System during the recent training with Wipro using Apex, SOQL, and Lightning Web Components to manage invoices, line items, payments, and overdue tracking, implementing automated calculations, validation logic, role-based security, and dynamic user interfaces to demonstrate end-to-end application development from data modeling and backend automation to responsive UI design.

- **TEN Learning Platforms (Skillset- MERN, Django, ReactJS, Tailwind CSS, MongoDB, Node.js)**

Developed a suite of full-stack web applications inspired by leading learning platforms: **TEN Tech Competition Engine** (HackerRank-style coding practice, MERN + Django), **EduTen** (Udemy-like platform offering free video courses, ReactJS + MongoDB + Node.js + Tailwind CSS), and **TEN CodeHub** (GeeksforGeeks-style learning hub with authentication, MERN + Tailwind CSS). Collectively, these projects provide interactive coding practice, authenticated learning, and access to free video courses, showcasing expertise in modern full-stack development.

- **Responsive Portfolio Website (Skillset- Next.js, React, Tailwind, CSS, and HTML) [Link](#)**

Enhanced a fully responsive personal portfolio website ensuring optimal viewing experience across various devices and screen sizes and lined up the building process with 100% success.

CO-CURRICULARS AND EXTRA-CURRICULARS

- Gold Medal in Inter-house Basketball and kabaddi Tournament.
- Secured first position in Dance Competition and Second Position in Debate Competition.
