EDUCATION

- Chandigarh University**
Bachelors in Computer Science Engineering
Key Subjects: Data Structures (Algorithms), Database, Networking, Operating Systems, Cloud Computing, Theory of Computation, Big Data Analytics, Software Engineering
Punjab, India
Aug 2021- May 2025
- Vision Valley School, Kashipur, Uttarakhand**
Intermediate- PCM, Percentage-88%
CBSE
Mar 2020- April 2021

OBJECTIVE

Currently working as Programmer Analyst Trainee at Cognizant Technology Solutions Pvt. Ltd. Graduated in Computer Science and Engineering from Chandigarh University. Aiming to work in a dynamic and challenging environment that leverages my skills. Committed to continuous learning and professional growth, with a focus on contributing to the company's success through innovation, resourcefulness, and effective communication.

SKILLS SUMMARY

- Languages Known:** C++, Java, Python, SQL, JavaScript, HTML, CSS
- Frameworks:** Scikit-Learn, Matplotlib, NumPy, Pandas, React, Bootstrap, Spring Boot
- Tools:** Android Studio, MySQL, SQLite, Microsoft Office (PowerPoint, Word, Excel), Next.js, Node.js
- Platforms:** Linux, UNIX, PyCharm, Jupyter Notebook, VS Code, IntelliJ, Power BI, Unity Engine
- Soft skills:** Leadership, Creative, Excellent Communication, Problem Solving, Time Management, Adaptability

EXPERIENCE

- Programmer Analyst Trainee at Cognizant Technology Solutions Pvt Ltd (Full-Time)** **August 2025 – Present**
Working as a Programmer Analyst Trainee in Application Development and Maintenance. Handy with JAVA, Command like interfaces such as LINUX, frameworks such as Bootstrap and Spring Boot, and Maven.
- MERN and Django Developer at The Entrepreneurship Network (Internship)** **April 2025 – August 2025**
Served as a guide and Chief of various Team-Leads working on projects on MERN stack and Django. Completed projects like EduTEN and TEN Tech Competition Engine and collaborated with Cross Functional Teams and handled deployment processes.
- Software Developer Intern at SmartSchool** **November 2024- January 2025**
As an SDE Intern, I learned about Selenium and JUnit, & worked to automate over 50 test cases and ensured software quality and reliability.

PROJECTS/TRAININGS

- TEN Tech Competition Engine (Skillset- MERN, Django Framework) [Link](#)**
Cloned Hacker Rank Website constructed using MERN and Django which provides interface for learners to learn.
- EduTen (Skillset- ReactJs, MongoDB, Nodejs, Tailwind CSS) [Link](#)**
A Udemy-like website built to provide learning and coding platform to enhance skills of users and give them access to free video courses.
- TEN CodeHub (Skillset- Reactjs, MongoDB, NodeJS, Tailwind CSS) [Link](#)**
A MERN Stack website, clone of GeeksforGeeks with Tailwind CSS & MongoDB authentication.
- AI Text Summarization (Skillset- AIML, Transformer Models (like BERT, Pegasus, T5), Flask, Bootstrap) [Link](#)**
Developed AI text summarization models using Transformer Models improving processing speed and providing 5+ more features.
- Responsive Portfolio Website (Skillset- Next.js, React, Tailwind, CSS, and HTML) [Link](#)**
Enhanced a fully responsive personal portfolio website ensuring optimal viewing experience across various devices and screen sizes and lined up the building process with 100% success.
- Yoga Pose Detection (Skillset- Python, Computer Vision, Machine Learning, Deep Learning) [Link](#)**
Developed a Machine Learning Model for yoga pose detection with 92% accuracy which involved data collection, preprocessing, model training, and evaluation
- Sentiment Analysis (Skillset- Natural Language Processing, Tokenization, ML, Deep Learning)**
Created a Sentiment analysis tool with 85% accuracy using NLP techniques, analysing text data to determine sentiment (positive, negative, or neutral) and providing insights. Hands-on experience in machine learning and deep learning.
- Training on Artificial Intelligence and Machine Learning using NLP [Link](#)**
Gained hands-on experience in building and deploying NLP models, achieving a 90% success rate in text classification tasks and various other projects.
- Web Development (Skillset- HTML, CSS, JavaScript)**
Completed guided web development projects through Coursera by IBM and Google acquiring knowledge of front-end and back-end development. Successfully deployed 5 web applications and learned how Full Stack Development works.
- Game Designing using Unity Engine [Link](#)**
Created game assets, scripted gameplay mechanics, and optimized performance for seamless experience. Achieved almost more than 90% satisfaction rate from Beta Testers at different platforms and deployed it on itch.io.

CO-CURRICULARS AND EXTRA-CURRICULARS

- Secured 4377th International Rank and earned a Gold Medal in the International Mathematics Olympiad by the Science Olympiad Foundation.
- Played Football at All India Inter University (AIIU), several CBSE cluster and secured 3rd position in Khel Maha Kumbh.
- Auditioned for TV Show “Big Junior Star”.

HOBBIES

Creative Writings (Poetry, Novels) | Music Composing | Lyricist | Outdoor Activities | Ancient Literature | Science Fiction
